ENGINEERING CONSULTING

Our vision is to be the preferred engineering partner, committed to deliver innovative, cost-effective, and reliable solutions.

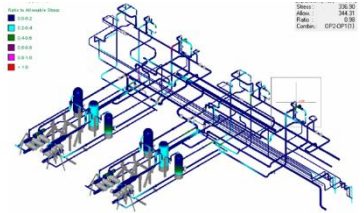

Our services:

- **Stress Analysis**
 - Piping and Pipeline
 - Machinery
 - Vessels, Boilers, tanks
- **Field Services**
 - Rotating or Static Equipment
 - Vibration Measurement
 - Torsional Wireless Measurement
 - Strain Gauge Measurement
- **Vibration Analysis**
 - Acoustical Pulsation Analysis
 - Mechanical Piping Natural Frequency Analysis
 - Thermal Analysis
 - Piping Forces Response Analysis
- **Fluid Mechanics**
 - Heat Transfer
 - Fluid Induced Vibration
 - Combustion
 - Multiphase Flow Analysis
 - Fluid Structure Interaction
- **Rotor Analysis**
 - Torsional Analysis
 - Rotordynamics
- **Structural Analysis**
 - Skids and Skid Mounted Equipment
 - Foundations
 - Pile/Soil Interaction

Our Strengths:

- 20 years' experience of solving your challenges
- High quality and cost-effective solutions
- Flexibility, responsiveness, teamwork, and thorough knowledge

A team passionate about innovation, real challenges, and thorough engineering solutions with a strong focus on customer satisfaction.
